A COMMITMENT TO COLLABORATIVE CARE
 "70 YEARS OF EXCELLENCE IN CONTINUING EDUCATION"

William Paveletz, DMD
The Magic of Prevention
Course Description:
 Caries infection has increased in young adult populations and continues to be a major disease for children. This course discusses the impact of Nano Technology on today's preventative and restorative materials. Attendees will have a "hands-on forum" to provide their dental teams with new skills on today's desensitizers, sealants, and fluoride treatments to combat patient's current symptoms and prevention of future issues.
Learning Objective:

- Gain an understanding of new research findings that can contribute to the evidence for application of varnish with chemotherapeutic fluoride treatment.
- Understand the findings of recent research exploring how dental practitioners are using scientific evidence in their patient treatment decisions and patient counseling.
- Learn methods of applying Xylitol containing based fluoride treatments and Nano Hybrid Sealants and their effectiveness on today's patients.
- Understand the correct CDT coding procedure for hygiene procedures and review the "current changes" to desensitizing and "home use" fluoridation treatments.

Tricia Osuna, RDH, BSDH, FAADH
CHANGE YOUR THOUGHTS AND IMPROVE YOUR OUTCOMES - An Update on Protocols, Products and Treatment Options
Course Description:
 Updated protocols assist us in determining our patient's specific needs. As we move towards a more collaborative profession, we need to embrace these updates to identify those needs. We are presented with continuous challenges of new advances in products and technology and their use in dentistry and are in need of information to determine when and how to add them into our armamentaria. As professionals providing health services, our perception of product use along with protocols needs to be discussed with our team as well as the interdisciplinary referrals we have. The process of care (assessment, diagnosis, treatment planning, implementation, evaluation and documentation) requires a comprehension of protocols, products and treatment options and how they are to be utilized.
Learning Objectives:

- Modify diagnosis assistance with the team and rationale for changes in assessment forms and diagnostic tools
- Distinguish which new-to-market products should be brought into your practice
- Integrate materials and products for a variety of uses in the dental office from infection control, dental hygiene therapy, oral cancer screening, patient communication and instrumentation
- Develop effective communication with patients and assist in the business of the dental practice
- Formulate strategies that incorporate efficiency in patient treatment for more productive scheduling

Mahnaz Zandi, DDS, MS
GUMMY SMILE - Excessive Gingival Display, Etiology, Diagnosis and Latest Treatment Modalities
Course content:

- Describing Pleasant smile
- Definition of Excessive Gingival Display (EGD)
- Diagnostic tools for Diagnosis Of EGD; Intraoral exam, Facial Exam, Cephalogram
- Definition of Golden Ratio and its application in Dentistry and specifically in EGD
- Etiology of EGD;
 1. Plaque or drug induced gingival hyperplasia
 2. Altered/Delayed passive eruption
 3. Anterior dento-alveolar extrusion
 4. Vertical maxillary excess
 5. Short upper lip
 6. Hyper active upper lip

Learning Objectives:

- Describing treatment modalities for each specific etiology
- Case Presentation
- Proper examination and correct diagnosis must be performed before treatment planning for patients with EGD
- Understanding the etiology and treatment options is crucial in the treatment of these patients
- Teamwork and multidisciplinary approach to treatment is the key to successful outcome.

Katrina M. Sanders, RDH, BSDH, M.Ed, RF
WARNING: Graphic Photographs Ahead
Course Description:
 While the rest of the world may quiver with churned stomachs, one of the best traits of a dental professional is their excitement and joy around graphic oral diseased cases. Despite the oftentimes 'colourful' nature of the oral disease, these cases offer an incredible learning opportunity, particularly in the importance of early and definitive intervention. Join Katrina M Sanders, RDH, BSDH, M.Ed, RF for a dental rendition of 'Dr Pimple Popper' as she presents graphic photographs of surgical cases requiring periodontal therapy. This will be your final warning: there WILL be graphic photos ahead!
Learning Objectives:

- Review appropriate surgical cases for periodontal referral
- Identify options for treatment planning of detailed periodontal therapy in an efficient, detailed and strategic method
- Describe short and long term goals for periodontal patients that are measurable and attainable

WILLIAM PAVELETZ, DMD
 Dr. William Paveletz, DMD, is a graduate of Temple University School of Dentistry. Upon receiving his DMD degree he completed a one-year general practice residency at University of Pittsburgh and continued studying prosthetics at the Graduate Department of Pittsburgh Dental School. Currently he is of VOCO's North America Clinical Directors of Continuing Education. He lectures nationally / internationally to dental retailers, dental societies and teaching institutions. Dr. Paveletz has been published in various dental trade publications regarding temporization techniques with dental implants, treating geriatric patients and fluoridation usage in adolescences. He has a true passion for preventative and restorative dentistry with an emphasis on biocompatibility and holistic dentistry. His hands-on workshops focus on topics ranging from dental coding and billing, hygiene, esthetic dentistry, fixed and removable prosthetics, and nano and orocer technology. *Sponsored by VOCO.*

TRICIA OSUNA, RDH, BSDH, FAADH
 Tricia Osuna, BSDH, RDH, FAADH is a University of Southern California graduate, Past President of the American Academy of Dental Hygiene and California Dental Hygienists' Association. Tricia is in her 44th year as a dental hygienist, with many of those as a clinician. She shares her experiences with her audiences in a humorous and enlightening presentation experience. Ms. Osuna is a lifelong CDHA/ ADHA member and a previous Member of the Dental Board of California. She is a Founding Member of the American Board of Facial Esthetics. Licensed in both California and New York, her experiences traverse the dental hygiene arena in a unique way spanning a variety of roles including Consultant, Clinician, Educator, International Presenter, Author, Mentor as well as owner of Professional Insights, Inc. *Sponsored by Hu-Friedy.*

MAHNAZ ZANDI, DDS, MS
 Dr. Mahnaz Zandi is a board-certified periodontist. She is a graduate from the University of Southern California, where she completed a 3 year residency program in Periodontics and received a Master's Degree of Science in Craniofacial Biology. She is also a current faculty member at the University of Southern California. Dr. Zandi is a Diplomat of the American Board of Periodontology. She maintains membership in the American Academy of Periodontology and the American Academy of osteointegration. Her many years of experience, as well as her research in Periodontology make her an expert in implant placement, gum and bone surgery of the mouth and aesthetic periodontal surgery. Besides her expertise and technical proficiency, Dr. Zandi is incredibly caring and gentle with her patients and patient care is always her first priority. Dr. Zandi's practice is limited to Periodontics and Implant Surgery.

KATRINA M. SANDERS, RDH, BSDH, M.ED, RF
 Katrina is a clinical dental hygienist, author and international speaker. She is a vibrant, passionate and charismatic award-winning educator with a unique approach to delivering continuing dental education. Katrina is the Clinical Liaison, Hygiene Excellence and Innovation for AZ Perio, the country's largest periodontal practice. She works alongside Diplomates to the American Board of Periodontology to instruct on collaborative professionalism and standard of care protocols while delivering education through hygiene boot camps and study clubs. Known as "The Dental Resultant", Katrina is a dental hygiene consultant focused on high-level standards, excellence and production. Katrina is the founder, CEO and keynote speaker for Sanders Board Preparatory and is a published author with RDH Magazine, Inside Dental Hygiene, Oral Health Group, DentaTown, and Today's RDH, a columnist and advisory board member for Modern Hygienist, editorial advisory member for the Dental Academy of Continuing Education and brand ambassador for Dimensions of Dental Hygiene. Her philanthropic efforts include dental humanitarian work in developing countries, supporting abused and homeless animals and spreading awareness about the benefits of organ and tissue donation. *Sponsored by Ivoclar.*
