ADA CERP® | Continuing Education
 Recognition Program

The Western Society of Periodontology is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. WSP designates this activity six and a half (6.5) continuing education credits.

A COMMITMENT TO COLLABORATIVE CARE
 “70 YEARS OF EXCELLENCE IN CONTINUING EDUCATION”

FEATURED SPEAKERS

KATRINA M. SANDERS, RDH, BSDH, M.ED, RF

Katrina is a clinical dental hygienist, author and international speaker. She is a vibrant, passionate and charismatic award-winning educator with a unique approach to delivering continuing dental education. Katrina is the Clinical Liaison, Hygiene Excellence and Innovation for AZ Perio, the country's largest periodontal practice. She works alongside Diplomates to the American Board of Periodontology to instruct on collaborative professionalism and standard of care protocols while delivering education through hygiene boot camps and study clubs.

Known as "The Dental Resultant", Katrina is a dental hygiene consultant focused on high-level standards, excellence and production. Her philanthropic efforts include dental humanitarian work in developing countries, supporting abused and homeless animals and spreading awareness about the benefits of organ and tissue donation. *Sponsors: P&G, Designs for Vision, Ivoclar, CloSYS & BioGaia*

WILLIAM PAVELETZ, DMD

Dr. William Paveletz, DMD, is a graduate of Temple University School of Dentistry. Upon receiving his DMD degree he completed a one-year general practice residency at University of Pittsburgh and continued studying prosthetics at the Graduate Department of Pittsburgh Dental School. Currently he is of VOCO's North America Clinical Directors of Continuing Education. He lectures nationally / internationally to dental retailers, dental societies and teaching institutions. Dr. Paveletz has been published in various dental trade publications regarding temporization techniques with dental implants, treating geriatric patients and fluoridation usage in adolescents. He has a true passion for preventative and restorative dentistry with an emphasis on biocompatibility and holistic dentistry. His hands-on workshops focus on topics ranging from dental coding and billing, hygiene, esthetic dentistry, fixed and removable prosthetics, and nano and ormocer technology. *Sponsored by VOCO.*

LYNN ATKINSON, RDH

Lynn Atkinson has been a Registered Dental Hygienist for 30 years. She graduated from Cypress College with a degree in Dental Hygiene in 1989 and was fortunate enough to be a part of several dental teams that incorporated state of the art technology. Since obtaining the Associate Fellowship Certification through the World Clinical Laser Institute (WCLI) in 1996, Lynn has been actively applying the use of dental lasers in hygiene on a daily basis. Lynn went on to achieve the Standard Proficiency Certification through the Academy of Laser Dentistry (ALD) in 2013 and the Advanced Proficiency Certification Parts I and II in 2019. Lynn is currently practicing four days a week and is also training hygienists, doctors, and team members on the use of lasers along with strategies to incorporate dental lasers into their protocol with her company, Laser Focused Hygiene. Lynn is an active member of the Academy of Laser Dentistry, the American Dental Hygiene Association, the California Dental Hygiene Association and is the Hygiene Member on the Biolase Advisory Board. Lynn serves on the Board of Directors at the Academy of Laser Dentistry as Auxiliary Chair and is involved in the testing committee. *Sponsored by Biolase.*

TRICIA OSUNA, RDH, BSDH, FAADH

Tricia Osuna, BSDH, RDH, FAADH is a University of Southern California graduate, Past President of the Amer can Academy of Dental Hygiene and California Dental Hygienists' Association. Tricia is in her 44th year as a dental hygienist, with many of those as a clinician. She shares her experiences with her audiences in a humorous and enlightening presentation experience. Ms. Osuna is a lifelong CDHA/ADHA member and a previous Member of the Dental Board of California. She is Founding Member of the American Board of Facial Esthetics. Licensed in both California and New York, her experiences traverse the dental hygiene arena in a unique way spanning a variety of roles including Consultant, Clinician, Educator, International Presenter, Author, Mentor as well as owner of Professional Insights, Inc. *Sponsors: Directa Dental, Enova, Ivoclar*

Saturday, December 3, 2022

PROGRAM

Katrina M. Sanders, RDH, BSDH, M.Ed, RF

WARNING: Graphic Photographs Ahead

Course Description:

While the rest of the world may quiver with churned stomachs, one of the best traits of a dental professional is their excitement and joy around graphic oral diseased cases. Despite the oftentimes 'colourful' nature of the oral disease, these cases offer an incredible learning opportunity, particularly in the importance of early and definitive intervention. Join Katrina M Sanders, RDH, BSDH, M.Ed, RF for a dental rendition of 'Dr Pimple Popper' as she presents graphic photographs of surgical cases requiring periodontal therapy. This will be your final warning: there WILL be graphic photos ahead!

Learning Objectives:

- Review appropriate surgical cases for periodontal referral
- Identify options for treatment planning of detailed periodontal therapy in an efficient, detailed and strategic method
- Describe short and long term goals for periodontal patients that are measurable and attainable

William Paveletz, DMD

"Are Your Patients Too Sensitive?" Addressing Oral Hypersensitivity/Pain Management with Today's Patients

Course Description:

Caries infection has increased in today's population and continues to be a major disease for children and adults. This course discusses the impact of Nano-technology on today's preventative and restorative materials. Attendees will have a "hands-on forum" to provide their dental teams with new findings on today's desensitizers, fluoride applications and dental tooth creams used to combat patient's current symptoms and effectively handle pain management

Learning Objectives:

- Gain an understanding of new research findings that can contribute to the evidence for application of varnish with chemotherapeutic fluoride treatment
- Understand the findings of recent research exploring how dental practitioners are using scientific evidence in their patient treatment decisions and patient counseling
- Attendees will learn about the method of applying Xylitol containing, natural and artificial-based fluoride treatments and Nano filled tooth creams
- Understand how to discuss options with your patient to better manage their sensitivity and pain issues that occur when they neglect their oral health
- Understand the correct 2020 CDT coding for hygiene procedures and incorporate certain hygiene procedures in daily patient discussions to increase profitability in the office

Lynn Atkinson, RDH

LECTURE: Diode Lasers Used in the Hygiene Practice

Course Description:

The Diode laser has become the most utilized laser in dentistry today especially in the hygiene department. Diode lasers are soft-tissue lasers that have many advantages over traditional surgical and therapeutic techniques including less pain, faster healing and preciseness, bacterial reduction, along with no contraindications. Some of the most commonly used Diode laser procedures in the hygiene department are Laser Bacterial Reduction (LBR), Laser Assisted Periodontal Therapy (LAPT), hemostasis, and the treatment of oral lesions (aphthous ulcers/herpetic lesions). This course will present common diode laser procedures, techniques used in the hygiene department, and how to incorporate lasers into your practice.

Learning Objectives:

- Identify the laser procedures and benefits most commonly used in the hygiene department
- Understand the laser device and settings
- Discuss tips and techniques to get the best results with your patients
- Describe strategies for communicating and educating patients about lasers

HANDS-ON WORKSHOP: Diode Lasers Used in the Hygiene Practice

Course Description:

The Diode laser has become the most utilized laser in dentistry today especially in the hygiene department. This course will give you hands on techniques used in the hygiene practice. Mechanisms, safety, tips, and protocols will be reviewed, and attendees will have an opportunity to demonstrate the use of the lasers for Laser Bacterial Reduction, Laser Assisted Periodontal Therapy, Hemostasis, and Aphthous Ulcers/Herpetic lesions on porcine jaw.

Learning Objectives:

- Operate the laser device understanding basic biologic interactions
- Demonstrate competency in using the laser with hygiene procedures
- Understand the difference in the procedures of Laser Bacterial Reduction and Laser Assisted Periodontal Therapy
- Utilize and understand the laser safety protocols
- Understand the laser device, tips, and settings

Tricia Osuna, RDH, BSDH, FAADH

INFECTION PREVENTION – CLOSE TO PERFECTION - What's Required for Regulation Compliance

Course Description:

This course, which can be specifically tailored to a state or province, will provide current information and guidelines for safe treatment of patients and protection of dental professionals. Infection control recommendations and guidelines from OSAP, IPAC, CDC and various state as well as provincial resources will be presented and discussed. Infection control review with the office team aids in follow through in the office on a day-to-day basis as well as development of office systems. Each participant will leave with a wealth of references to utilize in the establishment of office protocols. Let's talk about what the recommendations / guidelines advise should be done then evaluate what we are currently doing!

Learning Objectives:

- This course will provide information for the clinicians to be able to:
- Recognize the specific requirements and how they can be incorporated into every day practice
- Differentiate the guidelines for various sterilization process; hand washing and patient protection
- Demonstrate effective cleaning and disinfectant techniques in the operatory
- Distinguish what changes are necessary in your office setting

**3 Hour Workshop
\$99.00 OR
Lecture & Workshop
\$129.00**
