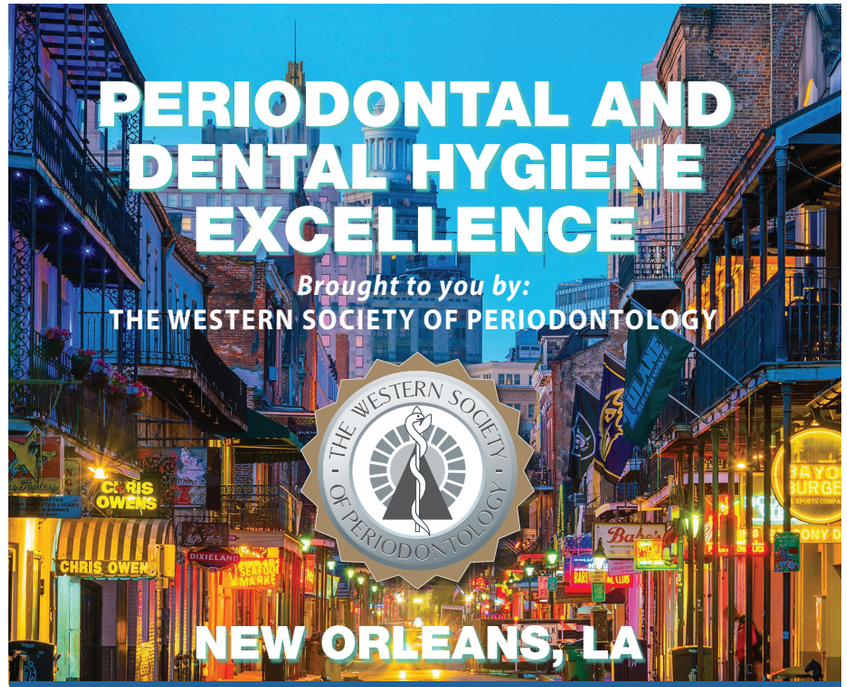
ADA C·E·R·P® | Continuing Education Recognition Program

The Western Society of Periodontology is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. WSP designates this activity for six hours (6) continuing education credits.



Saturday, Sept. 23, 2023

FEATURED SPEAKERS

WILLIAM PAVELETZ, DMD

Dr. William Paveletz, DMD, is a graduate of Temple University School of Dentistry. Upon receiving his DMD degree he completed a one year general practice residency at University of Pittsburgh and continued studying prosthetics at the Graduate Department of Pittsburgh Dental School. Currently he is one of VOCO's North America Clinical Directors of Continuing Education. He lectures nationally/internationally to dental retailers, dental societies, and teaching institutions. Dr. Paveletz has been published in various dental trade publications regarding temporization techniques with dental implants, treating geriatric patients, and fluoridation usage in adolescences. He has a true passion for preventative and restorative dentistry, with an emphasis on bio-compatibility and holistic dentistry. His hands-on workshops focus on topics ranging from dental coding and billing, hygiene, esthetic dentistry, fixed and removable prosthetics, and nano and ormocer technology.

TRICIA OSUNA, BSDH, RDH, FAADH

Tricia Osuna, is a University of Southern California graduate, Past President of the American Academy of Dental Hygiene and California Dental Hygienists' Association. Tricia is in her 44th year as a dental hygienist, with many of those as a clinician. She shares her experiences with her audiences in a humorous and enlightening presentation experience. Ms. Osuna is a lifelong CDHA/ ADHA member and a previous Member of the Dental Board of California. She is a Founding Member of the American Board of Facial Esthetics. Licensed in both California and New York, her experiences traverse the dental hygiene arena in a unique way spanning a variety of roles including Consultant, Clinician, Educator, International Presenter, Author, Mentor, as well as owner of Professional Insights, Inc. *Sponsored by: VOCO*

HEATHER ROGERS, RDH

Heather M. Rogers began her career in dental hygiene in 1999 when she graduated from the College of Southern Nevada. She has worked in prosthodontics, periodontics, and general dentistry. Heather discovered her love for presenting educational courses while achieving her bachelor's degree and being involved with her professional association. She completed her Bachelor of Science in Dental Hygiene in 2010 and is currently providing continuing education for professionals in communications, diabetes, implant maintenance, probiotics, and infection control.

PROGRAM

William Paveletz, DMD

Finding the "Gold Crown " in Your Practice…Utilizing the Profitability of Your Hygiene/Preventative Department

Course Description:

Dental practice owners look to achieve the best dental care and to make a profit, but they overlook one of the most valuable assets in their practice…it is their hygiene department!

Learning Objective:

- This lecture will review the changing preventative products' chemistries and will review how dental practice owners can profit from everyday procedures offered by hygienists or EFDAs
- Understand how nano and ORMOCER technology is impacting preventative products
- Review streamlining approaches to desensitizing for better efficacy
- Understand how to work with your dental team and patients to achieve optimal oral health

Tricia Osuna, BSDH, RDH, FAADH

CHANGE YOUR THOUGHTS AND IMPROVE YOUR OUTCOMES - An Update on Protocols, Products, and Treatment Options

Course Description:

Updated protocols assist us in determining our patient's specific needs. As we move towards a more collaborative profession, we need to embrace these updates to identify those needs. We are presented with continuous challenges of new advances in products and technology and their use in dentistry and are in need of information to determine when and how to add them into our armamentaria. As professionals providing health services, our perception of product use along with protocols needs to be discussed with our team, as well as the interdisciplinary referrals we have. The process of care (assessment, diagnosis, treatment planning, implementation, evaluation, and documentation) requires a comprehension of protocols, products, and treatment options and how they are to be utilized.

Learning Objectives:

- Modify diagnosis assistance with the team and rationale for changes in assessment forms and diagnostic tools
- Distinguish which new-to-market products should be brought into your practice
- Integrate materials and products for a variety of uses in the dental office from infection control, dental hygiene therapy, oral cancer screening, patient communication, and instrumentation
- Develop effective communication with patients and assist in the business of the dental practice
- Formulate strategies that incorporate efficiency in patient treatment for more productive scheduling

Heather Rogers, RDH

Providing Care in a Marijuana Legal World

Course Description:

Have you thought about how medical and recreational marijuana use may impact you as a practitioner? This course will discuss treatment modalities of patients using this drug. With states legalizing marijuana, it will be challenging to address just how to safely provide dentistry to our patients. We'll talk about how to make common sense decisions on a topic that has become our new normal. We will also discuss the basic history, method of use, myths, and provide a general knowledge of this complex and ever-changing topic.

Learning Objectives:

- Review how patients are using marijuana for medicine and recreation
- Discuss the myths and truths of medical and recreational marijuana use
- Learn the verbal skills to discuss the effects of marijuana use on the dentition and oral tissue
- Understand the contraindications in providing dentistry to patients using marijuana in a medical or recreational manor
