ADA CERP® | Continuing Education Recognition Program

The Western Society of Periodontology is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. WSP designates this activity for six hours (6) continuing education credits.

"72 YEARS OF EXCELLENCE IN CONTINUING EDUCATION"

HARJIT SINGH SEHGAL, BDS, MS, FAGE

Dr. Sehgal is an Associate Professor and co-director of Predoctoral Periodontics at Oregon Health & Science University (OHSU) School of Dentistry in Portland, Oregon. He is a Diplomate of the American Board of Periodontology and serves as a Board Examiner, as well. Dr. Sehgal directs many periodontology courses and teaches both pre-doctoral and post-doctoral students. Dr. Sehgal has over 20 years of clinical and research experience. Some of his current research is focused on clinical investigations of CBCT accuracy, electronic health records, dental quality measures, and opioid prescribing behaviors. He serves as a reviewer for many scientific journals including Journal of Periodontology, Clinical Advances in Periodontics, Special Care in Dentistry, Journal of Dental Education, and Journal of Advanced Oral Research. Dr. Sehgal maintains a cutting-edge dental practice limited to periodontics and implant dentistry in the OHSU Faculty Dental Practice, focused on comprehensive non-surgical and surgical periodontal therapy, periodontal regeneration and plastic surgery, and implant dentistry and treatment of complex patients.

TRICIA OSUNA, BSDH, RDH, FAADH

Tricia Osuna, is a University of Southern California graduate, Past President of the American Academy of Dental Hygiene and California Dental Hygienists' Association. Tricia is in her 44th year as a dental hygienist, with many of those as a clinician. She shares her experiences with her audiences in a humorous and enlightening presentation experience. Ms. Osuna is a lifelong CDHA/ ADHA member and a previous Member of the Dental Board of California. She is a Founding Member of the American Board of Facial Esthetics. Licensed in both California and New York, her experiences traverse the dental hygiene arena in a unique way spanning a variety of roles including Consultant, Clinician, Educator, International Presenter, Author, Mentor as well as owner of Professional Insights, Inc.

LYNN ATKINSON, RDH

Lynn Atkinson, RDH, has been a Registered Dental Hygienist for over 30 years. She graduated from Cypress College, California with a degree in Dental Hygiene. Her passion for utilizing technology while delivering the highest quality of patient care keeps her practicing four days a week as the Clinical Hygiene Director for a high-performing, patient-oriented dental practice in Mission Viejo, California. Lynn lectures and provides clinical, hands-on training to dental professionals on successfully incorporating lasers and other adjunctive therapies into their protocols. For the past several years, Lynn has been a speaker at numerous conferences across the nation, speaking on a variety of topics. She lectures locally in addition to her hands-on courses, has authored several published articles, and has been a guest speaker on industry audio media platforms, enjoyed nationwide. Lynn is an active member and participant of multiple dental associations and organizations. Lynn is a key opinion leader for several dental manufacturers and companies, as well as a speaker and trainer for US EMS Guided Biofilm Therapy. She serves on the Board of Directors at the Academy of Laser Dentistry as Auxiliary Chair, a member of the ALD Speakers Bureau, Education, Conference, and Testing Committees. Lynn is the honored recipient of the ALD 2022 Leon Goldman Clinical Excellence Award.

When the Mouth Speaks for the Body: Periodontitis and Systemic Health

Course Description:

Oral health is an integral part of systemic wellbeing. There is a plethora of evidence suggesting associations between periodontal disease and various systemic conditions including cardiovascular, metabolic, neurodegenerative, and autoimmune diseases. The role of chronic inflammation in oral and systemic health is constantly developing. This course will provide current evidence of the interrelationships between periodontal disease and systemic health, and describe how dental professionals can serve as health care coaches to help their patients achieve an overall better health.

Tricia Osuna, BSDH, RDH, FAADH

CHANGE YOUR THOUGHTS AND IMPROVE YOUR OUTCOMES - An Update on Protocols, Products, and Treatment Options

Course Description:

Updated protocols assist us in determining our patient's specific needs. As we move toward a more collaborative profession, we need to embrace these updates to identify those needs. We are presented with continuous challenges of new advances in products and technology and their use in dentistry and are in need of information to determine when and how to add them into our armamentaria. As professionals providing health services, our perception of product use along with protocols needs to be discussed with our team, as well as the interdisciplinary referrals we have. The process of care (assessment, diagnosis, treatment planning, implementation, evaluation, and documentation) requires a comprehension of protocols, products, and treatment options and how they are to be utilized.

Learning Objectives:

- Modify diagnosis assistance with the team and rationale for changes in assessment forms and diagnostic tools
- Distinguish which new-to-market products should be brought into your practice
- Integrate materials and products for a variety of uses in the dental office from infection control, dental hygiene therapy, oral cancer screening, patient communication and instrumentation
- Develop effective communication, with patients and assist in the business of the dental practice
- Formulate strategies that incorporate efficiency in patient treatment for more productive scheduling

Lynn Atkinson, RDH

Comprehensive Care and Planning for the Dental Hygienist

Course Description:

The dental hygienist plays an integral role in the process of comprehensive diagnosis and delivering the treatment plan with the dentist. But, how does the dental hygienist gather the necessary information, deliver, and educate the patient in an efficient and effective manner? This course will introduce technology, protocols, diagnostics, and communication skills to add value to the practice and provide the patient with the highest quality of comprehensive care. Guided Biofilm Therapy, lasers, and voice activated charting systems will be introduced with therapeutic values to the patient and practitioner.

Learning Objectives:

In this course, attendees will learn the following:

- Describe the ideal comprehensive care appointment
- Learn how to achieve the best delivery of information and education to your patients
- Identify which technology and protocols to use to be effective and efficient
