ADA C·E·R·P® | Continuing Education Recognition Program

The Western Society of Periodontology is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. WSP designates this activity for six hours (6) continuing education credits.

FEATURED SPEAKERS

LAURENCE S. AMBROSE, DDS, MS

Laurence S. Ambrose, DDS, MS, is a board certified periodontist and has been a full-time staff member at the VA Medical Center in Phoenix, Arizona since 1998. He is also Adjunct Clinical Faculty at the Arizona School of Dentistry and Oral Health. He received his certificate in Periodontics from the VA Medical Center in Milwaukee, Wisconsin and his Master of Science degree through Marquette University. From 1991 to 1995 he was a Commissioned Officer with the United States Public Health Service and practiced general dentistry on numerous Indian Reservations in northern New Mexico. He is a graduate of the University of Illinois at Chicago College of Dentistry and is Past President of the Arizona Society of Periodontists. Dr. Ambrose received his Master of Science in Oral Biology from Marquette University in 2000 and became a Diplomate of the American Board of Periodontology in 2002.

LYNN ATKINSON, RDH

Lynn Atkinson, RDH, has been a Registered Dental Hygienist for over 30 years. She graduated from Cypress College, California with a degree in Dental Hygiene. Her passion for utilizing technology while delivering the highest quality of patient care keeps her practicing four days a week as the Clinical Hygiene Director for a high-performing, patient-oriented dental practice in Mission Viejo, California. Lynn lectures and provides clinical, hands-on training to dental professionals on successfully incorporating lasers and other adjunctive therapies into their protocols. For the past several years, Lynn has been a speaker at numerous conferences across the nation, speaking on a variety of topics. She lectures locally in addition to her hands-on courses, has authored several published articles, and has been a guest speaker on industry audio media platforms, enjoyed nationwide. Lynn is an active member and participant of multiple dental associations and organizations. Lynn is a key opinion leader for several dental manufacturers and companies, as well as a speaker and trainer for USEMS Guided Biofilm Therapy. She serves on the Board of Directors at the Academy of Laser Dentistry as Auxiliary Chair, a member of the ALD Speakers Bureau, Education, Conference, and Testing Committees. Lynn is the honored recipient of the ALD 2022 Leon Goldman Clinical Excellence Award.

FILIP AMBROSIO, DDS

Dr. Filip Ambrosio grew up in Rochester, NY, and attended college at the Rochester Institute of Technology. From there he attended dental school at the University of Detroit Mercy, where he completed a Doctor of Dental Surgery degree. After dental school, Dr. Ambrosio continued his education at the University of Detroit Mercy by completing a master's degree and Periodontal Surgery certificate. Dr. Ambrosio is board certified with the American Board of Periodontics. He is also a member of the American Academy of Periodontology, the American Dental Association, Seventh District Dental Society and is a member of the New York State Dental Association's peer review and quality assurance council. He has multiple publications in peer-reviewed journals and received the award for most downloaded publication in 2018-2019 from the journal, Clinical Advances in Periodontology. *Sponsor: PerioView*

PROGRAM

Larry Ambrose, DDS, MS

LESSONS LEARNED AFTER 30 YEARS OF PERIO

Course Description:

Starting to feel burned out? Not quite sure what to do with that patient on multiple medications for a myriad of systemic conditions? Wondering when it's time to refer to a periodontist? We`ll discuss some common problems and solutions with rationale and insight that will make your practice more rewarding so you can hit the ground running on Monday morning.

Learning Objectives:

- Administer safer, less painful, and more appropriate local anesthesia
- Gain insight into some common (and not so common) medical urgencies and emergencies
- Optimize your patient and tailor your expectations for periodontitis and peri-implantitis treatment
- Learn a proven method for treating peri-implantitis in your own office

Lynn Atkinson, RDH

Comprehensive Care and Planning for the Dental Hygienist

Course Description:

The dental hygienist plays an integral role in the process of comprehensive diagnosis and delivering the treatment plan with the dentist. But, how does the dental hygienist gather the necessary information, deliver, and educate the patient in an efficient and effective manner? This course will introduce technology, protocols, diagnostics, and communication skills to add value to the practice and provide the patient with the highest quality of comprehensive care. Guided Biofilm Therapy, lasers, and voice activated charting systems will be introduced with therapeutic values to the patient and practitioner.

Learning Objectives:

In this course, attendees will learn the following:

- Describe the ideal comprehensive care appointment
- Learn how to achieve the best delivery of information and education to your patients
- Identify which technology and protocols to use to be effective and efficient

Dr. Filip Ambrosio, DDS

Shifting The Paradigms In Periodontal Therapy; Implementing Innovation And Increasing Case Acceptance

Course Description:

The time has come to evolve how we treat periodontal disease. In this lecture, we discuss how traditionally periodontal therapy consisted of SRP, flap surgery and then bone regeneration. Our focus is to discuss the innovation and need for adaptation of new technology to our practices. By implementing and utilizing a dental endoscope alone as an endoscopic debridement, or in combination with laser therapy and biologic modifiers we can provide less invasive options with more predictable results.

Learning Objectives:

- Reducing the need for traditional osseous surgery and understanding where it's still needed
- Learning the history, components and workflows of a dental endoscope
- Learning how to implement dental endoscopy as microsurgery in your practice to optimize your efficiency *Sponsor: PerioView*
