“72 YEARS OF EXCELLENCE IN CONTINUING EDUCATION”

LYNN ATKINSON, RDH

Lynn Atkinson RDH has been a Registered Dental Hygienist for over 30 years. She graduated from Cypress College, California with a degree in Dental Hygiene. Her passion for utilizing technology while delivering the highest quality of patient care keeps her practicing four days a week as the Clinical Hygiene Director for a high-performing, patient-oriented dental practice in Mission Viejo, California. Lynn lectures and provides clinical, hands-on training to dental professionals on successfully incorporating lasers and other adjunctive therapies into their protocols. For the past several years, Lynn has been a speaker at numerous conferences across the nation, speaking on a variety of topics. She lectures locally in addition to her hands-on courses, has authored several published articles and has been a guest speaker on industry audio media platforms, enjoyed nationwide. Lynn is an active member and participant of multiple dental associations and organizations. Lynn is a key opinion leader for several dental manufacturers and companies as well as a speaker and trainer for US EMS Guided Biofilm Therapy. She serves on the Board of Directors at the Academy of Laser Dentistry as Auxiliary Chair, a member of the ALD Speakers Bureau, Education, Conference and Testing Committees. Lynn is the honored recipient of the ALD 2022 Leon Goldman Clinical Excellence Award.

SHERRI M. LUKES, RDH, MS, FAADH

Sherri M. Lukes, RDH, MS, FAADH, has been a dental hygienist for 42 years and holds advanced degrees in education. She is associate professor emerita, Southern Illinois University, where she taught oral pathology, public health and multicultural dental hygiene. Research was concentrated in migrant oral health, oral pathology and public health issues, resulting in multiple peer reviewed publications. Sherri enjoys integrating her years of experience into CE courses to empower dental professionals in the process of care. She is an approved speaker of and holds a pathology fellowship in the American Academy of Dental Hygiene, is a past president of the Illinois Dental Hygienists' Association, and a member of the American Academy of Oral Medicine. Community service includes biannual, yearly trips to central/southern Mexico, delivering preventive care in an orphanage and remote villages. Honors include Community Service, Research, and Teacher of the Year awards while at SIU, IFLOSS Coalition/ Illinois Department of Public Health Oral Health Champion Award and the Sunstar/RDH Award of Distinction. Sponsored by: Waterpik, GC America, Sunstar, CloSys, Ivoclar, BioGaia

DR. SAMUEL B. LOW, DDS, MS, M.ED

Samuel B. Low, DDS, MS, M.Ed, Professor Emeritus, University of Florida, College of Dentistry; He is past President of the American Academy of Periodontology. He is a current President of the Academy of Laser Dentistry. He was selected "Dentist of the Year" by the Florida Dental Association, Distinguished Alumnus by the University of Texas Dental School, and the Gordon Christensen Lecturer Recognition Award. He is a Past President of the Florida Dental Association and past ADA Trustee. Sponsored by: Vakker

Comprehensive Care and Planning for the Dental Hygienist
Course Description:

The dental hygienist plays an integral role in the process of comprehensive diagnosis and delivering the treatment plan with the dentist. But, how does the dental hygienist gather the necessary information, deliver, and educate the patient in an efficient and effective manner? This course will introduce technology, protocols, diagnostics, and communication skills to add value to the practice and provide the patient with the highest quality of comprehensive care. Guided Biofilm Therapy, lasers, and voice activated charting systems will be introduced with therapeutic values to the patient and practitioner.

- Learning Objectives:
In this course, attendees will learn the following:
- Describe the ideal comprehensive care appointment
- Learn how to achieve the best delivery of information and education to your patients
- Identify which technology and protocols to use to be effective and efficient

Sherri M. Lukes, RDH, MS, FAADH
Down and Out or Down and About? Raising Awareness of Mental Health Issues in Dentistry
Course Description:

A plethora of mental health issues plague our society today and the dental community is not immune. Dental professionals encounter multiple stressors in the workplace which may result in significant anxiety, depression, and other emotional outcomes. The evidence concerning mental health issues nationwide and among dental professionals will be presented in this course along with signs and symptoms of anxiety and depression. Management and treatment strategies will be discussed, including approaches for suicide prevention. The knowledge obtained in the session can be utilized in personal as well as patient care for achieving whole body health in ourselves and our patients.

- Learning Objectives:
- Upon completion of the session, participants will be able to:
- Discuss the evidence concerning mental health issues among dental professionals and patients
- Describe signs and symptoms of anxiety and depression
- Discuss management strategies for anxiety, depression and suicide prevention
- Appreciate the importance of civic responsibility to assist all people with mental health issues

The Ultimate Non-Surgical Periodontal Workshop
Course Description:

Join us for The Ultimate Non-Surgical Periodontal Workshop, a comprehensive course designed for both dentists and dental hygienists. This workshop will equip you with a user-friendly perio approach, from patient acceptance scripting to chairside positive action. Explore a range of time-tested and new technologies to effectively diagnose and manage periodontal and implant diseases, with the entire team working in synergy. Experience the power of microthin ultrasonic technology and optional diode lasers, providing optimal access for both dentists and hygienists. Discover the next generation guided biofilm therapy with airflow, enhancing chairside speed and efficiency. Our workshop also focuses on innovative topical and local anesthesia techniques, ensuring a pain-free experience tailored to each patient's needs.

- Learning Objectives:
During this workshop, you will:
- Maximize time efficiency by integrating workflow between dentists and hygienists
- Develop realistic non-surgical therapies, incorporating cutting-edge anti-inflammatory systems like micro-ultrasonics and innovative airflow systems
- Differentiate and utilize laser technologies for both surgical and non-surgical periodontal indications, including Laser Bacterial Reduction (LBR), curettage, and low-level laser therapy (LLLT)
- Establish a high-quality periodontal maintenance program that enhances your restorative practice, while also addressing coding, third-party reimbursement, and achieving 100% case acceptance
